

## EqCetera Inc.

Schools play a crucial role in shaping young lives, but not every student thrives in a traditional classroom setting. Some face personal challenges—whether it's anxiety, past trauma, learning difficulties, or disengagement from school. **Horses Helping Humans™** offers a powerful, hands-on alternative that helps students develop confidence, emotional regulation, and life skills in a safe and supportive environment.

# HORSES HELPING HUMANS™

Referral Form

### How This Program Benefits Students:

- ✓ **Re-engagement & Focus** – Students struggling with school due to personal hardships can rediscover motivation and a sense of purpose.
- ✓ **Emotional & Social Growth** – By working with horses, students learn self-awareness, emotional control, and respect—essential skills for both school and life.
- ✓ **Alternative Learning Approach** – Some students learn best through experience. This program provides real-world lessons that build resilience, responsibility, and communication skills.
- ✓ **Proven Outcomes** – This results-based program has been successfully implemented across northern NSW and southeast QLD, with referrals from major organisations including Wesley Mission and the Department for Child Safety for over 16 years. **From 2025, thanks to Telethon 7 it is now available in WA.**

With three structured sessions led by qualified facilitators, **Horses Helping Humans™** provides a unique opportunity for students to develop the tools they need to succeed—both in school and beyond. Schools, teachers, youth and support workers are encouraged to refer students who would benefit from this life-changing experience.
